

Stainless Steel Non Concussive Taps

non concussive
operation
providing a
water saving
solution

Introduction

Inta range of wall and basin mounted push taps are designed for use with the range of Intamix thermostatic mixing valves. With manual operation the tap functions for a period of time and then closes automatically. This operation makes the tap ideal for use in unsupervised areas such as sports changing rooms and washrooms. It is also perfect for use as a water economy device. The simple operation of the push tap enables users with limited mobility to use the facility.

NC112SS

- Robust Stainless Steel Construction - Grade 316L
- Water Saving Device
- Closes Automatically
- Simple Non Concussive Operation
- Highly Resistant to Harsh Chemical or Cleaning Agents
- Complies with BS-EN816
- Ideal For Heavy Use Environments

Product Range

Description	Code
Stainless Steel Self Closing Push Button Basin Tap	NC112SS

Stainless Steel Non Concussive Basin Mounted Tap

Technical Specification

Max Inlet Pressure	6 Bar
Min Inlet Pressure	1 Bar
Max Inlet Temperature	65°C
Timed Flow (Standard)	15 seconds at 3 bar
Connection	1/2"
