Installing a Heat Pump or Commercial system?

Don't forget the chemicals and filters...

With nearly 60 years of innovation, Fernox continues to extend its chemical, filter and diagnostic testing range to meet the dynamic requirements for the light commercial and renewable sectors.

Fernox Commercial Water Testing

App based tests
Simple managing, tracking and recording

Quick turnaround
Results back in 72hrs (working week)*
*of receipt of sample

Water Fill Test
Complies with BG29/2021 Table 6

Commercial Water Quality Test
BG29/2021 Table 4 & 5 and BG50/2021 Table 1

The Benefits of Water Treatment

Save on fuel consumption

Prevent unscheduled system downtime

Save on repair & replacement of parts

Convenient non-invasive chemical repair solutions

Extend the lifespan of the system

Reduce carbon emissions

Support energy efficient and sustainable initiatives

Optimise system performance

The Fernox five-step process, based on decades of experience maintaining the quality of HVAC system water.
