

DT4 Room Thermostats

Reimagined by you

Main features

- Designed to be backward and forward compatible, including OpenTherm®.
- Can be installed standalone or part of an existing system, including conventional and combi boilers, and new heating systems.
- Easy-to-read, energy-efficient LED-based display that turns off when the screen is not in use.
- Wired or wireless versions to suit almost every installation.
- Integration with smart devices such as Honeywell Home evohome and the HCC100 underfloor multi-zone controller.
- Backlit, captive touch buttons.
- Built in eco-mode to reduce room temperature for a set time period and help save money and the environment.
- Built in boost mode to increase room temperature for a set time period.

Installer benefits

- 5-year warranty
- Works with heating and cooling systems including heat pumps, zoning and underfloor heating and cooling. Also compatible with hybrid and green heating systems
- Wiring plate for easy installation
- Backwards compatible with existing Honeywell Home products such as BDR91A and others
- Available in wired, wireless and OpenTherm® versions
- Thermostat design and function improved following installers' feedback*

Customer benefits

- Coloured icons give a clear indication of thermostat's status
- Slim, unobtrusive design
- Easy-to-read LED-based on/off eco display
- Frost protection built in
- Self-learning TPI fuzzy-logic control
- Reduced maintenance with no batteries required**

*Resideo survey of 90 installers and 326 customers 2022

** OpenTherm versions only
