

SDS Plus Hammer Bits

Professional SDS Plus Hammer Bits

A high performance drill bit with a superior carbide tip to give extended durability. PGM approved to ensure the bits drill with dimensional precision and performance when used in concrete and masonry.

- Special Nickel Chromoly shank
- High quality BC20 Tungsten Carbide tip
- Cold formed blanks utilised up to 11mm diameter
- Fully heat treated to eliminate bending
- Twin flute design for increased drilling performance
- Shot-peened for increased strength and durability
- P.G.M. approved and marked

User Caution: Rebar drilling will result in reduced tool life. All chisel tip SDS drills can shear if the tip snags the reinforcing whilst passing alongside.
PGM. This mark is an international symbol of quality for masonry bits, governed by the independent Prüfgemeinschaft Mauerbohrer e.V. (PGM). The mark guarantees that the bits are manufactured and tested to ensure dimensional precision and performance. The DIBt (German Institute of Construction Technology) specifies that PGM marked drills should be used when geometrically exact holes are required for safety critical fixings. (5.5 & 6.5 do not carry the PGM mark)

SDS Plus Hammer Bits

NEW

High quality, cost effective drill bit suitable for use in rotary hammers with the SDS plus tool system.

- Fully heat treated to eliminate bending
- Shot blast finish for rust protection

SDS Plus Steels

- Point** - Breaks up concrete & masonry.
- Chisel/Spade** - Breaks up concrete & masonry. Also removes plaster or rendering.
- Tile** - Angled head design for easy removal of tiles, plaster or rendering.
- Gouge** - Removes mortar from brickwork prior to re-pointing.
