

Monument (MON3144)

3144C Wide Jaw Adjustable Wrench 300mm (12in)

The Monument Wide Jaw Adjustable Wrench has a plastic rubber cushion handle which is permanently adhered to the shank of the tool. Its soft anti slip material ensures a comfortable and strong grip. The jaw configuration of the wrench results in a stronger and better tool to fastener contact point providing a substantially durable tool. Made from Chrome Vanadium Steel with a Phosphate finish. The Monument Wide Jaw Adjustable Wrench has the following specification: Length 300mm 12in, Jaw Capacity 60mm.

Length (mm)
300

Capacity (mm)
60

Length (in)
12
