

Monument (MON2036)

# 2036T Olive Puller 15/22mm

The Monument 2036T Olive Puller is ideal for removing olives from copper piping without damaging the attached pipe. Suitable for 15mm and 22mm copper pipe. This puller simply utilises the compression fitting locking nut to remove the olive from the tube. With all the major parts of the tool turned from brass, this olive puller provides a quick and reliable remedy to removing most olives. Made in Britain.
