

Non Concussive Basin Mounted Push Taps

inta taps used as
water economy
device operate **for
a period of time**
and then closes
automatically

Introduction

The Inta range of wall and basin mounted push taps is designed for use with our range of thermostatic mixing valves. With manual operation the tap functions for a period of time and then closes automatically. This operation makes the tap ideal for use in unsupervised areas such as sports changing rooms and washrooms. It is also perfect for use as a water economy device. The simple operation of the push tap enables users with limited mobility to use the facility.

Available in standard and contemporary styles the push tap is safe, reliable and reflects the quality of the intatec range of total washroom solutions.

- Simple operation
- Closes automatically
- Water economy
- Non concussive operation
- 2ltr, 4ltr and 5ltr flow regulator options available
- WEPLS accredited (NC162CP05)
- Operating pressure 0.1 - 5 bar

non concussive basin
mounted tap (pairs)
NC162CP
