THE BOLD LOOK
OF **KOHLER**®

Enhancing your home, improving your life

Choosing and planning a new bathroom is an exciting, creative experience. It's a rare opportunity to transform one of the most important parts of your home – where you can relax, refresh and revitalise, and where your daily routine begins and ends.

KOHLER® began designing bathroom products nearly 140 years ago, and we've seen a lot change in that time. In fact, we've been at the forefront of innovation, and our showering products lead the way. From the sleek, award-winning Torsion® to the highly configurable Minima®, we offer a wide range of shower enclosure options.

We've earned a reputation for iconic design and uncompromising quality. With everything from shower doors to shower trays, our wide selection lets you easily upgrade your existing bathroom or custom design a new one.

KOHLER® Quality.

Kohler develops, tests and handcrafts shower enclosures that last a lifetime. Through hard work and no compromise, we have built a reputation as solid as every product we create. We're passionate about what we do and proud of our heritage. Yet we're always looking ahead and ready to evolve. We embrace design innovation whilst never sacrificing the quality and craftsmanship the Kohler brand has been known for since 1873.

Minima Made-to-Measure

Minima made-to-measure shower enclosures invite you to create your own unique showering space. With glass panels up to 2 metres wide, you can build the shower of your dreams or renovate an atypical space. KOHLER® provides a home measure and installation service to ensure your Minima made-to-measure door or enclosure is a perfect fit.

- Home measure service available

MADE TO MEASURE

Minima made-to-measure shower enclosures invite you to create your own unique showering space. With bespoke capabilities you can build the shower of your dreams or renovate an atypical space.

Choose from a selection of wall and ceiling fittings, add a towel rail for enhanced comfort or convenience, or incorporate a dwarf wall into your design – just about anything is possible with Minima made-to-measure. We'll even build it for you.

Kohler provides a home measure and installation service to ensure your Minima made-to-measure door or enclosure is a perfect fit. From the initial planning stages through to installation, we'll see to it that everything runs smoothly.

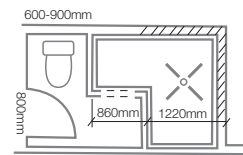

Minima Made-to-Measure & Installation Service

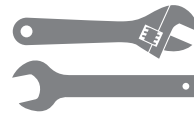

Measure

Design

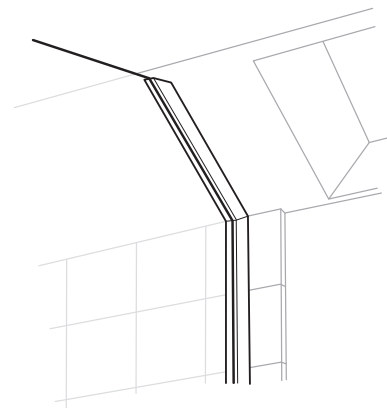

Customise

Install

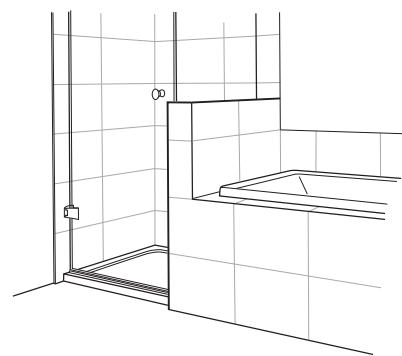

The Home Measure service can only be undertaken after tiling is complete and the tray is installed level. Following the Home Measure service, if you wish, our engineer will return to install the unit, further ensuring your complete satisfaction. Installation is only available if a Kohler engineer has carried out the survey and measure. Logistics and dimensions in your home could mean not everything is possible given a specific situation. Your retailer can provide guidance on this or feel free to call us on 0844 571 0048 for further assistance.

Minima Made-to-Measure Features

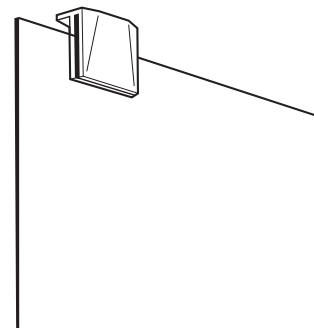

Angle & Notch Cuts

Whether it's an unusual loft space or complex bathroom layout, glass panels and doors can be bespoke to allow for that ideal fit. Angled cuts offer lines that follow the contours of the room and notches ensure no obstructive architecture prevents the perfect showering experience.

Dwarf Wall

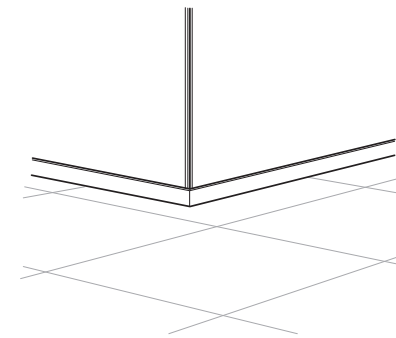

Whether there is a low level wall or bath end, Minima made-to-measure offers a solution to suit your space. Adapting shower enclosure panels around the constraints of the modern home, this feature allows for an integral showering space.

Ceiling Clamp

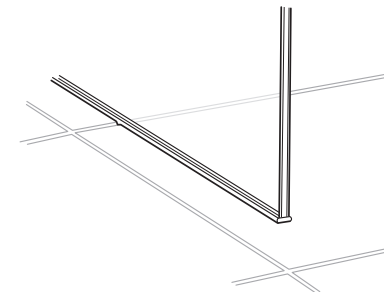

When the shower enclosure of choice makes a room with floor to ceiling panels, you can feel sure that the unit is fully secured and aesthetically pleasing with this purposeful yet clean looking solution.

Enclosures

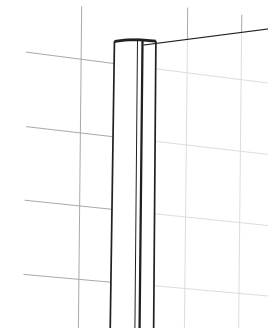

Surface Floor Profile

The most common means of securing your shower enclosure to the floor, these join surfaces to glass with a slim, yet sleek aluminum profile.

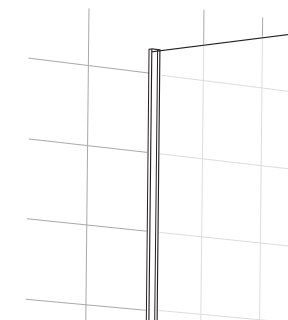

Recessed Floor Profile

Specifically for divider panel applications, this feature gives the impression of a seamless join between glass and floor.

Surface Wall Profile

The most conventional method of securing your shower enclosure to the wall, these connect surfaces to glass.

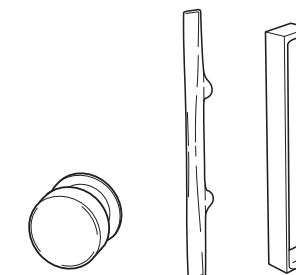

Recessed Wall Profile

Commonly used in divider panel applications, this feature gives the perception of glass and wall integration.

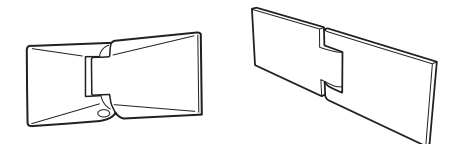

Towel Rail

Add that personal touch with a convenient towel rail.

- Anti-Slip is available on all trays except Low Level Plus trays

Shower Trays – How to Shop

Less is more for our range of low profile shower trays. Thin yet incredibly strong, their slender lines almost vanish into the floor, complementing modern shower enclosures perfectly to complete the minimalist ideal. What's more, ingenious design and advanced materials help keep cleaning minimal too.

Low Profile Tray

Choose from a range of Low Profile shower trays to create your minimalist shower enclosure. The 40mm height makes it one of the slimmest shower trays available, giving a sleek almost invisible “wet-room” look. The sleek styling flows through to the waste, which is integrated into the design to give a level surface for you to stand on.

- Low profile tray with 'walk-on' waste
- Patented laminated construction gives incredible strength whilst reducing weight
- BioCote® incorporated to reduce bacterial/mould growth by up to 99.9%
- High flow, vortex waste with self-cleaning action
- All trays available with riser kit for easy installation on concrete floors
- Tray colour white
- Lifetime guarantee

Technical Details

Height: 40 mm
 Rim width: 66 mm
 Height on riser: 140 mm
 Front surface: Durable Acrylic capped ABS incorporating BioCote®
 Filler: Resin-stone concrete for stiffness
 Rear skin: ABS
 Max flow rate: 30l/m

Clean and fresh forever with innovative BioCote® technology, every low profile tray stays protected for its whole lifetime, thanks to the antibacterial technology BioCote®, which is incorporated into the manufacturing process. This innovative antibacterial technology will keep your new shower tray cleaner than ever before by reducing bacteria and mould growth by up to 99.9%.

Riser Kits

A riser kit allows you to convert a low level tray to a riser tray providing the flexibility of installation on a solid floor. Each kit contains easy to install removable panels, simple clip-on fixings and robust adjustable push-fit riser legs.

Riser kit legs provide adjustability to make flat, the height of the tray has to be 100 mm from the floor surface to the underside of the tray. The new panel sits under the tray.

Numbers on each leg indicate level setting and once height is set, locking nuts ensure no movement.

Note: the Front Wrap style riser is still available if required

anti-slip

Shower Trays

The KOHLER® anti-slip tray is an anti-slip tray like no other. This tray exceeds the most stringent independently tested anti-slip test, passing at the – Class C.

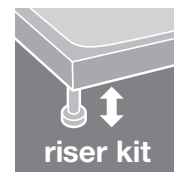

- Anti-slip coating is applied to the whole tray surface
- Low-profile 40 mm shower tray
- The coating is bonded to the tray for a long lasting finish
- Tray colour white
- Patented laminated construction gives incredible strength whilst reducing weight
- BioCote®, integrated into the anti-slip surface which reduces bacteria and mould growth by up to 99.9%
- Easy to clean
- All trays available with riser kit for easy installation on solid floor installations
- High Flow Vortex Waste with self cleaning action
- Anti-slip is available on all trays
- Lifetime domestic guarantee

vortex

anti-bacteria
Reduces bacteria and mould by up to 99.9%

Best in Class

What does Class C mean?

Kohler Anti-slip tray has achieved Class C for DIN 51097 – a barefoot ramp test. In testing the tray is fixed to the ramp and made wet and soapy. The tray is then inclined until the test subject slips.

The grip is given a classification depending on the angle of inclination of the slip. Class C is the highest classification. A tray must be inclined to a minimum of a 24° with the test subject still standing.

On Kohler Anti-slip trays, test subjects were still standing at an incline of over 30°.

DIN 51097 Ramp test for barefoot		Ramp angle
	Class A	12°
	Class B	18°
	Class C	24°
	Kohler Anti-slip tray	30°

Life without labour is guilt. Labour without art is brutality. - John Ruskin

and closets that carry the Kohler mark are well designed and will stand, in the best sense of the word, for the life of the house. Kohler culture are pure, uniform, harmonious. If you prefer white, Kohler white is as immaculate as freshly laundered linen. Kohler faucets and handles and

Kohler Vortex sink with chrome fittings, equipped with Porcelainizer.

Kohler Wallace cast-iron mixing faucet with third side supply.

KOHLER OF KOHLER

WHEN A FELLER NEEDS AN ARCHITECT

When a feller needs an architect, he needs a man who can see the beauty of a building in a way that no other man can. He needs a man who can see the beauty of a building in a way that no other man can. He needs a man who can see the beauty of a building in a way that no other man can.

ELEVEN IMPORTANT POINTS

1. Kohler design is distinctive, purposeful, practical.
2. Kohler design is decorative, purposeful, practical.
3. Kohler design is decorative, purposeful, practical.
4. Kohler design is decorative, purposeful, practical.
5. Kohler design is decorative, purposeful, practical.
6. Kohler design is decorative, purposeful, practical.
7. Kohler design is decorative, purposeful, practical.
8. Kohler design is decorative, purposeful, practical.
9. Kohler design is decorative, purposeful, practical.
10. Kohler design is decorative, purposeful, practical.
11. Kohler design is decorative, purposeful, practical.

What John Michael Kohler saw in 1883 when he looked at a cast-iron horse trough was the bathtub that launched a global plumbing company. That pioneering spirit of ingenuity – the kind that sees a bathing revolution in a horse trough – has defined Kohler Co. from its earliest days. A visionary, John Michael Kohler understood the importance of innovative design and an uncompromising commitment to craft and quality. After four generations, we remain a family-owned company, with over 26,000 products and 13,000 patents to our name. Still leading the industry in innovation and design. Bolder than ever.
