

FloGuard

Leaf Protection for Gutters

This Innovative product prevents the entry of leaves into all PVC gutters, allowing for a non restrictive flow of rainwater. This easy-fit system will also help with prevention of blockages and ensures that the gutters retain their optimum performance.

- Suitable for gutter widths 100mm-115mm.
- Prevents blockage from leaves and other debris.
- Easy to fit 5 metre pack (10 x 500mm lengths).
- Clips together, no screws required.
- Manufactured in tough polypropylene.

Instructions & Dimensions

STEP 1

Place Leaf Guard under existing support brackets.

STEP 2

Push clip system together to extend the installation run.

STEP 3

To complete the run, trim final Leaf Guard section to required length.
