

Snow/Tile Guard

With UK weather conditions becoming increasingly unpredictable, installing FloPlast's Snow/Tile Guard ensures the property is protected, as well as preventing unnecessary injury from falling tiles, snow and debris.

- Easy to handle and straightforward to install.
- Prevents snow/tile slippage.
- 2m wide x 162mm high.
- Brackets should be fitted at a maximum of 800mm centres, using two no. 12 x 1½" round head screws.
- Galvanised finish, for long lasting performance.
- Protects conservatories from falling roof tiles.
- Assists in reducing insurance costs/claims caused by snow/tile damage.
