

# iball UNIVERSAL GAS/WATER BALL VALVES

### Introduction

Intas range of universal gas and WRAS approved ball valves are the installers choice for safe, industry compliant gas and potable water installations. In addition to fully meeting the requirement of BS EN 331:1998+A1:2010, inta's range of 15,22 & 28mm gas ball valves are also WRAS approved making them suitable for use on potable water systems. Each valve is supplied with yellow, red and blue lever sleeves meaning the installer can denote the use of the valve depending on the installation.

- Meets the requirements of BS EN 331:1998+A1:2010
- WRAS approved
- Independently assessed and certified
- Suitable for hot and cold water and gas installations
- Available in 15, 22 & 28mm lever handle ball vales
- Supplied with yellow, blue and red lever handle sleeves
- Temperature rating for gas application -20°C - 60°C
- Temperature rating for non-gas application -20°C - 110°C
- Pressure rating PN16

### Product Range

15mm universal gas/water lever ball valve	IN89ALGWC15
22mm universal gas/water lever ball valve	IN89ALGWC22
28mm universal gas/water lever ball valve	IN89ALGWC28
35mm universal gas/water lever ball valve	IN89ALGWC35
42mm universal gas/water lever ball valve	IN89ALGWC42
54mm universal gas/water lever ball valve	IN89ALGWC54
1/2" universal gas/water lever ball valve	IN90ALGWP15
3/4" universal gas/water lever ball valve	IN90ALGWP20
1" universal gas/water lever ball valve	IN90ALGWP25
1 1/4" universal gas/water lever ball valve	IN90ALGWP32
1 1/2" universal gas/water lever ball valve	IN90ALGWP40
2" universal gas/water lever ball valve	IN90ALGWP50
