7th Edition

William Wilson
BATHROOM SHOWROOMS

INDULGE YOUR SENSES

An extensive range of stunning, innovative, superbly designed bathroom suites, brassware, shower enclosures & accessories providing high quality durable and extremely functional products that satisfy the demands of today's contemporary living.

Modern, clearly defined lines create a modest or extravagant feel in any home.

Lifeshield uses the very latest nano technology to deliver a unique bond with the glass that leaves the surface totally smooth and able to resist the build up of unsightly limescale and soap deposits which can lead to glass looking less than perfect. Totally clear UV stable and extremely durable, Lifeshield won't peel or flake and unlike some other systems you don't need any specialist cleaners or top up products to maintain it's dirt repellent properties.

PLINTHS & PANELS

The Sensations plinth allows the shower tray to be elevated from 110mm to 135mm to give easy access to the plumbing. It is a steel frame on adjustable feet for ease of levelling topped with a plywood baseboard creating a solid foundation. It is complete with a template and panel supporting blocks. When set at 110mm the moulded fascia panel fits under the tray. When set higher, a surface mounted flexible flat panel is available.
