# A complete water treatment solution

## MC1

is a new, advanced, system inhibitor from the UK's No.1 manufacturer of magnetic filters.

It prevents system corrosion and scale and is suitable for all sealed and open vented central heating systems.

The new formula has been specially developed to deliver exceptional results when used in conjunction with ADEY's market leading MagnaClean® domestic filter range.

- High performance chemical inhibitor
- Prevents system corrosion and scale
- Energy Savings Trust recommended
- Long-term system protection
- For use in accordance with BS7593:2006
- Zero scaling formulation
- Five key active anti fouling ingredients
- Suitable for all heating systems
- Suitable for all metals including aluminium

## MC3

is a new, fast acting and powerful chemical cleaner. It's specially designed to remove central heating system sludge and debris.

The powerful formula has been developed to work in conjunction with ADEY's acclaimed MagnaClean® flushing process. This makes it possible to complete a system cleanse in just two hours.

- High performance chemical cleaner
- Removes system sludge, debris and scale
- Fast action, multi-purpose cleansing
- Restores system performance
- For use in accordance with BS7593:2006
- Specially developed for magnetic filters
- Perfect for MagnaCleanse process
- Suitable for all heating systems
- Suitable for all metals including aluminium

### ENVIRONMENTAL

ADEY is a carbon neutral company and cares about the environment. ADEY's chemicals are non-hazardous and while providing effective cleansing are non-toxic and biodegradable.
