Taps & Showers

WWW.BRISTAN.COM

January 2018

Welcome

Looking for bathroom inspiration? You've come to the right place. Whether you are undergoing a complete bathroom refurb or simply looking for a bit of an update; the addition of a shiny new shower, tap or accessory could make all the difference.

And to make it easy for you to find your perfect style, we've created icons that highlight the benefits of our products, meaning you can quickly find exactly what you're looking for.

You're in safe hands with the UK's number one tap and shower company, so sit back, relax and enjoy browsing our beautiful range!

The Britan Team

PRODUCT BENEFITS *Explained*

SAFE TOUCH

Designed to keep the exterior cool to the touch, ensuring you're never at risk of scalding.

2 OUTLETS, 1 ON

Two shower outlets, which only run separately.

RUB CLEAN

There's no need to scrub. Limescale build-up can be easily wiped off the nozzles of this shower product.

DIGITAL SHOWER

Has sophisticated technology, greater functionality, and/or smart features.

2 OUTLETS, 2 ON

Two shower outlets, which can both run at once.

QUICK CHANGE

To change this product for something else, simply turn off the water supply and remove.

PRECISE GLIDE

Features ceramic cartridges for long life durability and more precise control.

3 OUTLETS, 2 ON

Three shower outlets, two of which can run at the same time.

ECO-FRIENDLY

This shower saves as much water as possible (but it doesn't feel like it).

SECURE FIX

Comes with metal fixings to secure your tap in place, so it won't move or rotate during use.

DECOR SMART

Will use existing holes and fixings to fit in the same spot as your previous shower.

REJUVENATING

This shower uses a medium amount of water – just enough for a powerful, rejuvenating flow.

EASY FIT INSTALLATION

Designed to make installation quicker and easier.

LUMINANCE CHROME

A hard-wearing, flawless finish that lasts for years. It's also scratch resistant and salt spray tested to ensure added durability.

DRENCHING

This shower fully soaks you with water for the most indulgent showering experience.

1 OUTLET

One shower outlet.

FAMILY SAFE

Thermostatic temperature control and automatic stops prevent surges of hot or cold water.

ANTI-LIMESCALE

Reduces build up and helps extend product life.

CONTENTS

4 GETTING STARTED

We've covered some of the key things to consider when choosing your new tap or shower as well as some of the latest trends and technologies

8 SHOWERS

Create your very own bathroom paradise with our great selection of showers. Whether you're looking to add a touch of contemporary style to your bathroom, or even a traditional twist, our range is sure to impress

24 TAPS

From cool, contemporary designs through to classic, traditional styles, and everything in between, you're guaranteed to find the perfect design whatever your taste or budget

48 ACCESSORIES

Sometimes it's the smallest finishing touches that can make the biggest impact. Our wide selection of accessories offer the opportunity to add style and distinction to your bathroom

Meet the TEAM

We have a large team dedicated to creating new designs in order to bring you showers and taps in line with the latest trends. Here are just three of the key people involved in the different aspects of that process. Keep an eye out for their hints and tips throughout this brochure.

Lisa / Product

Making sure that our range of products are absolutely right for your requirements and budget may sound simple but involves a lot of hard work behind the scenes from our Product Managers.

Jim / Design

Our talented team of UK Design Engineers work tirelessly to ensure our products not only look great but also give you the best performance possible.

Natalie / Quality & Technical

We take quality control extremely seriously so our products are thoroughly inspected and tested in our lab that has the same accreditation as labs that test for DNA! As a result, our products have extensive guarantees as we are confident that they will stand the test of time.

Don't know your hot water system?

When choosing your perfect shower, it's important to consider your water system as the best shower for you will depend on how your hot water system works. Have a chat with your plumber or visit www.bristan.com for an easy to follow guide that will help you to identify your water system and show you the products that are suitable for you.

Hints & tips...

The bathroom is one of the most important rooms in the home; it's where we get ready for the day ahead, but also relax and unwind at the end of it. Taps and showers have a huge impact on the way a bathroom looks. They are like jewellery; the finishing touches that complement everything else. Importantly, they must perform well, be functional and provide a luxurious, invigorating experience. Whether you're about to completely renovate your bathroom or are simply looking for a bit of a refresh, we are here to make it easier for you to choose the right tap and shower for your home.

Traditional vs Modern

One of the main decisions you'll need to make is whether you want to achieve a traditional or modern look. We have ranges to suit both; the majority of the ranges in this brochure will help you to create the perfect, modern bathroom but if you are looking for something a bit more traditional, then the 1901 and Colonial ranges are just for you. See page 36 for our Frenzy range, an ultra-modern choice.

GOOD TO KNOW
Our website has a handy filter for sink shapes so you can view just the taps to suit the shape of your sink

Sink shape

The shape of your sink is an important factor to consider. Square sinks look best with taps that feature sharp, angular lines such as Cobalt, whereas rounder sinks will be complemented by taps with softer lines such as Clio or Frenzy. See page 32 for our Clio range.

TAP HOLES

The number of tap holes that your sink and bath has will help you to narrow down your choices. All of our tap ranges have choices for one or two tap holes, including our one hole bath fillers which offer something a little different to the standard two hole options.

'The bathroom... a place to relax and unwind'

PERFECT MATCH

If you have a small sink in your cloakroom or en suite, you should go for a small basin mixer to match. Standard size basin mixers can look overpowering on small sinks and cause a bit of a splash too! Our Blitz, Cobalt, Orta and Smile ranges all feature small basin mixers.

Head to www.bristan.com to see our full product range including kitchen taps, showers and accessories. There's also lots of help and advice as well as a showroom and stockist locator so you can find your nearest place to see Bristan products.

Our top TRENDS

With so many different options now available, here's our handy guide to some of the key trends and technologies on offer.

'Thermostatic technology

GOOD TO KNOW

Digital technology can often mean a hefty price tag. Artisan® Evo provides an easy, affordable stepping stone into the digital world.

Digital revolution

Smart technology is here to stay and the latest bathroom products incorporate clever features. Digital showers give you precision temperature control down to the exact degree. Our Artisan® Evo Digital shower is a simple way of introducing digital technology into the bathroom, without the need to do any serious remodelling. With its ingenious compact design, the components can be placed almost anywhere. See pages 10-11 for full details.

reduces the risk of scalding'

Family safe

Thermostatic technology means that your chosen water temperature will stay the same for the duration of your shower, regardless of other things going on in your house such as someone flushing the loo or using a tap elsewhere. This is a benefit to us all but particularly for young children as it reduces the risk of scalding. Our Joy Thermostatic electric shower is one option but keep an eye out for more thermostatic products in the shower section.

Cobalt Stylish Square Valve with Luxury Fixed Head and Shower Kit
COBALT SHWR PK
£399

See page 19.

SPA INSPIRED

If you spend a lot of time relaxing in your bathroom then consider investing in a shower pack with a luxurious, large shower head to immerse and wash away your troubles.

Future-proofing

With many people choosing to renovate rather than relocate, it's definitely worth considering simple ways to make sure your taps and shower are going to be easy to use for years to come. Taps with a single handle, particularly a long or looped lever, tend to be easier to use for all of the family. Our Blitz (pictured) and Cadet ranges are good examples of this.

Designed for you SHOWERS

Whether you're looking for something to wake you up in the morning or to reinvigorate you after a long day at work, nothing quite beats the joy of a great shower.

The digital mixer shower

ARTISAN[®] EVO

A simple way of introducing digital technology into the bathroom, without the need to do any serious remodelling.

Choice of ceiling rose, adjustable riser or two outlet diverter

Choice of black, white and chrome controller

Adjustable Riser Kit and Single Function Handset

- ARDE SHCAR B Black £299
- ARDE SHCAR W White £299
- ARDE SHCARM C Chrome £329

Ceiling Rose Kit

- ARDE SHCCF B Black £299
- ARDE SHCCF W White £299
- ARDE SHCCFM C Chrome £329

Two Outlet Diverter

- ARDE SHCDIVM C Chrome £450

The wireless controller in black, white or chrome can be positioned up to 10 metres apart from the digitally controlled mixing valve. The slim valve is ideal for installing in an airing cupboard, under a bath or in a loft space. Choose from a ceiling rose, adjustable riser or two outlet diverter.

The chrome version includes a memory function to store your perfect showering temperature

BRISTAN

QD SHXDIVFF C Chrome £325

Quadrato with Adjustable Riser Kit and Single Function Handset

QD SHXSMFF C Chrome £289

Hints & Tips

THERMOSTATIC

WHAT DOES IT MEAN?

Bar showers take water from both the hot and cold water supplies and mixes them to achieve the desired temperature. Thermostatic technology means that the water temperature will stay the same regardless of water being used elsewhere in your home, so no more cold surprises or water that's too hot for you. For extra safety, Cool Chrome technology keeps the shower cool to the touch while in use.

Carre with Rigid Riser and Single Function Handset

CR SHXDIVFF C Chrome £325

Mini valve SHOWERS

Our wide range of mini valves include both contemporary and traditional designs to suit all tastes and will keep your plumber happy too with flexible installation options.

GOOD TO KNOW
All of our mini valves have the added reassurance of thermostatic technology

Maxi valve

SHOWERS

Similar to our mini valve showers in terms of their flexible installation, maxi valves offer a chunkier style with a higher water flow so are generally better suited to larger shower areas.

Prism® Dual Control, Exposed with Adjustable Riser Kit
PM2 CSHXAR C Chrome £459

Prism® Single Control, Exposed with Adjustable Riser Kit
PM2 SQSHXAR C Chrome £349

Quest Single Control, Exposed with Adjustable Riser Kit
QST SQSHXAR C Chrome £329

Jute Thermostatic Exposed Ceiling Fed Single Control with Single Function Handset
JU MTLSHX C Chrome £350

Hints & Tips

SINGLE OR DUAL CONTROL

Showers with a single control allow you to control the water temperature whereas showers with dual controls have an additional control for the strength of the water flow. This can be particularly beneficial for families with younger children where a strong water flow might be a bit too much.

Prism® Thermostatic Exposed Ceiling Fed Dual Control with Single Function Handset
PM TLSHX C Chrome £529

Shower
PACKS

These shower packs offer all of the products that you need to create a fantastic shower in one complete package

Electric SHOWERS

Fed from your cold water mains-feed rather than a hot water cylinder, electric showers are economical as water is heated as you need it through an integral heater in the shower unit. This means you can always have a hot shower, no matter how busy your bathroom is or even if your boiler breaks!

Hints & Tips

FANTASTIC FEATURES

All of our electric showers have separate temperature and water flow controls to make them really easy to use. Glee and Joy have the added benefits of digital temperature displays so you can more easily set your desired temperature, a handy storage shelf for your shampoos and shower gels as well as an anti-limescale feature which extends the product life by helping to reduce the build up of limescale. A warm up mode means you know when the water is at your desired temperature and a performance indicator lets you know when to clean the external filter and handset.

GOOD TO KNOW
 Choose a 9.5kW or 10.5kW electric shower for a higher water flow (13% & 24% more respectively)

Joy

Family safe thermostatic technology
