## Authentic looks from the natural world

Whatever look you have in mind for your bathroom makeover, Multipanel can help you achieve it.

Whether your bathroom is small or large; light or dark, my Multipanel Collection offers you a quick and cost-effective way of truly transforming it from a work-a-day functional space into one that is truly special.

Personally, I love dark moody themes and would lean towards one of the panels such as Graphite Elements, with its rugged industrial feel. But if the look you are going for is altogether lighter and brighter, Calacatta Marble or Soapstone Stellar are great choices.

Each of the collection's Elements, Stone and Wood designs work brilliantly on their own: combine them and you have even more possibilities for creating a look that is yours alone.

Marble, granite and wood panels look and feel like real slabs of stone, fossilised timber and patinated corten steel — so much so that you will want to reach out and touch them. I guarantee it!

New

- Linda Barker Collection available in sizes: 2400 x 1200mm, 2400 x 900mm or 2400 x 598mm
- 11mm thick waterproof wall panel consisting of bonded high pressure laminates and 9mm water resistant hardwood plywood
- Create discreet connection between panels with Hydrolock joint
- Unlipped or Hydrolock panels with loose, laminate edging strips available to match

Advances in laminate design allow much bigger realistic large scale images to be created on each panel, which gives a more organic, authentic look. We have incorporated this new True Scale technology within the new Linda Barker Collection.

## Linda's quick tips:

Creating the perfect bathroom

- A bathroom should be a calming restorative place, so loud colour clashes may prove to be just a little bit too distracting. Subtle contrasts of shade and texture, on the other hand, can give you pleasing combinations that work well in creating focal points that draw attention.
- Sketch out a floor plan to factor in all requirements including storage — regardless of its dimensions, your bathroom should have a generous feeling of space.
- Give yourself time to plan your perfect space. A mood board in the room will give you the opportunity to mull things over and allow the design to grow on you. To get the perfect look, avoid snap decisions.
- Avoid being swayed too much by on-trend reports - these might be lovely but may not be the best solution for your space.

Linda collaborated with a team of designers to create her collection

## Earth textures

Multipanel Classic Collection has an exquisite selection of textured finishes, all rich in depth and colour, that transmit warm tones perfect for creating the ultimate environment for relaxation.

## Stone

Elegant traditional gloss finishes designed to create a wow factor in your home. Featuring natural and precious stone, these finishes transport the natural world into the heart of your home.

## Contemporary

Modern gloss panels create a stunning backdrop for your interior. With spectacular light reflection, these striking panels enhance room dynamics, creating a bright, vibrant space.

This crisp monochromatic scheme is achieved with a Stardust (Classic Collection) feature wall, complemented by White Show (Classic Collection) throughout the rest of the bathroom, Coastal Grey Oak (Click Range) flooring and White Gloss ceiling.

# Heritage Collection

## Effortless sophistication

Escape to a world of elegance and cool relaxed colours.

Whether you long for a charming period style bathroom or one that exudes calm and serenity, the subtle colour harmonies of the Heritage Collection will help you create it. Sumptuous textures and hues such as Henley Gloss, Faversham Linewood or Alabaster Oak will enhance and transform any space, giving you a cool elegant bathroom that you'll admire for years to come.

Heritage comes with the added option of Hydrolock, Multipanel's innovative watertight panel connection. So now, whether you go for a complete colour block or a combination of the range's Wood, Matt, Linewood or Textile panels, you can also have the luxury of a virtually seamless finish to your design.

# Tile

## Beautiful tile effect without the hassle of grout

Tile effect wall panels offer the same beautiful, high-end look of real tiles – but without the installation and maintenance issues.

For years to come, you'll enjoy the clean fresh mould-free looks of these solid grade laminate panels. And, with nothing more than a quick wipe down, surfaces will continue to look as new as the day they were installed.

An affordable alternative to ceramic tiles, these 3mm thick waterproof panels are perfect for a simple and effective interior refresh. The panels are easy to fit and can be installed throughout the bathroom over existing tiles. The range is available in a variety of carefully selected finishes, to make the most of any space.

- 2440 x 1220mm – Minimum panel size (Actual size may be slightly larger to allow trimming to match grout lines between panels)
- 3mm waterproof wall panel (compact grade laminate)

# Reflect

## Glass alternatives for a modern twist

Refresh your bathroom with a beautiful and hard-wearing faux glass.

If you want the sleek, contemporary look of glass, the Reflect Range is for you. Made from a tough dual layered acrylic, these 4mm thick highly reflective panels have a stunning depth that create the lustre and illusion of real glass. Easy to cut and fit, you can create a gorgeous bespoke design that will have enduring good looks for years to come.

Available in a hand-picked collection of colours, including a striking blue or red, Reflect Range is the perfect choice for a stunning design statement in your bathroom.

The illusion and lustre of real glass: Aqua (Reflect) feature walls.

- 2440 x 1220 x 4mm
- Dual layered acrylic (4mm thick with toughened surface)
- Super gloss finish
- Easier to cut and fit than glass

Light up your room with the deep reflective lustre of the Reflect Range. The carefully assembled colour palette presents you with a completely flexible set of options for your bathroom. Panelling an entire room in Reflect will undoubtedly give you fabulous results, but it's also easy to pair Reflect with simple painted walls or to combine with panels from one of the other Multipanel ranges. Whatever you decide, Reflect promises to take your interior to the next level.

## Perfect for kitchen splashbacks

### Easy-cleaning: stunning looks

Multipanel walls can also be used as splashbacks in your kitchen. Position panels horizontally and you have a beautiful easy-to-clean kitchen splashback. The enormous choice available from the Linda Barker Collection, Heritage and Classic collections, or from our Tile or Reflect ranges offers you an exciting way to lift your kitchen and enhance it with the fabulous warmth, depth and light properties you only get with Multipanel.

Small Embossed Black Tile panels as a kitchen splashback with stainless steel splashback behind the hob.

### Combine Multipanel with heat-resistant hob splashbacks

Our stainless steel and back-coloured glass splashbacks are heat resistant and provide the necessary protection against naked flames and hot pans. A back-coloured glass hob panel, colour-matched to a Reflect Range splashback will give you a spectacular finish. Alternatively, you can achieve stunning results by pairing your stainless steel or back-coloured glass hob with contrasting colours and textures from other Multipanel collections.

#### Combine with stainless steel hob splashback

Therefore, the printed samples may not represent the overall effect once the floor is laid.

# Hydrolock<sup>®</sup>

## Innovative connection for a virtually seamless look

The Multipanel Hydrolock connection makes it possible to join two panels together without a mid-joint. Precisely engineered, Hydrolock edge details create a discreet and watertight joint for complete peace of mind. Recently improved to make installation even easier.

- Hydrolock panels are supplied as standard with tongued and grooved edges for easy click-into-place installation
- Accuracy of pattern alignment between panels may vary depending on the scale of the pattern
- When manufacturing Hydrolock joints, 20mm is lost from the original panel width, e.g.  
2400 x 598mm = 2400 x 578mm finished face size  
2400 x 1200mm = 2400 x 1180mm finished face size
