

The image shows a detailed energy label for an Alpha E-Tec 20R boiler. At the top left is the European Union flag. To its right, the word "ENERG" is written in large blue letters, with "енергия · ενεργεια" below it. Further right are four circular icons containing the letters Y, IJA, IE, and IA. Below this header, the brand name "Alpha" is written in a stylized font, with "HEATING INNOVATION" underneath. To the right of the brand name is the model "E-Tec 20R". Below the brand name is a small icon of a radiator. A vertical energy scale is shown on the left, with levels A+, A+, A, B, C, D, E, F, and G, each represented by a colored arrow pointing right. A black arrow labeled "A" points to the A level on this scale. Below the scale is a sound power level icon (a house with a speaker) and the value "47 dB". To the right of this is a large box containing the power output "20 kW". At the bottom left of the label is the year "2015" and at the bottom right is the code "811/2013".
