SALUS
CONTROLS

Slim and Stylish!

The NEW Quantum SAL-WQ610 and SAL-WQ610RF thermostats are the latest innovative addition to the SALUS portfolio and only available at Wolseley branches. These sleek and stylish thermostats are the slimmest on the market at only 10mm thick. The SAL-WQ610 is hard wired and the SAL-WQ610RF is wireless. The SAL-WQ610RF has a long battery life thanks to its state of the art built in rechargeable lithium battery and includes a pre-paired receiver, linked via Zigbee 2.4 GHz communication.

With innovation, science and quality in one, the new Quantum thermostats are feature packed to ensure that your clients have perfect control over their heating system.

Key Features

- Pre-paired from the box
- Walkthrough setup on LCD
- Powered by 230V (SAL-WQ610) or LI-ION rechargeable battery (SAL-WQ610RF)
