

Tesla UK
LIMITED

Over 20 years' experience in manufacturing, product development and distribution in the plumbing & heating industries.

PRODUCT GUIDE

ISSUE 1
2017/18

www.teslauk.com

Distribution

Operating from a 35,000-square foot warehouse based in the West Midlands we hold a wide range of products in stock so that we are able to offer a next day delivery service to our customers nationwide, including Northern Ireland.

Our customer service team are well trained, knowledgeable, friendly and efficient. We believe in going the extra mile for our customers ensuring they get what they want, when they want it. We aim to be a reliable extension of your own business.

Our Right-First-Time philosophy with accounts and documentation means that you have more time to concentrate on the important elements of your business.

Product Development

Our quality and technical team have over 50 years of industry experience and continually work towards developing our product ranges to exceed the market demand, improving on safety and quality features, whilst working in partnership with our Customers.

We are the designers and creators behind the cooker hose that incorporates a patented Fire Safe fusible plug which will shut off the gas supply at the socket in the event of a fire.

Manufacturing

With more than 20 years of manufacturing experience in the UK, at our West Midlands based production facility we produce and test products to a high standard and in accordance with the Kitemark Terms & Conditions issued by BSI.

We have the manufacturing capability to produce large volume or specific one-off, individual products.

Tailor Made

Tesla offer a bespoke packaging service to our customer base. Furthermore, we assist and support the Customer in all aspects of their marketing requirements such as literature and photography.

Moreover, we have the facility, capability and technical know-how to produce bespoke solutions for heating elements, across many industry sectors.

Quality

Where beneficial to the market, Tesla UK Ltd fittings and valves come with full approval from WRAS for potable water solutions. With a comprehensive range of products covered by this approval, you can rest assured that the products will exceed expectations.

Our complete range of immersion heaters are covered by the BEAB approved stamp. Formerly ASTA-BEAB and now Intertek. The world-renowned group of laboratories and testing facilities. The rigorous standard makes for peace of mind when supplying your domestic hot water needs.

Our gas products are approved to BSI standards so undergo the most stringent of testing to ensure compliance to the standards required for 1st, 2nd and 3rd gas families.

Supplying a comprehensive range along with many ancillary products into the oil distribution market, it is considered key that we are part of the oil industries best known association. Indeed, we have gone a stage further in making sure our fire valves are BSRIA tested and OFTEC certified to the latest OFCERT licence scheme standards.

Tesla UK Ltd has built its reputation throughout the UK as a primary supplier of in-depth product ranges dedicated to the Plumbing & Heating Industries. Tesla's expertise and manufacturing facilities are utilised by the industry, to support product supply and competitive pricing to meet market requirements. We have ISO9001 certificated factories for product manufacture and many products hold WRAS, Gas and OFTEC certificates.

Our service is first class.

Customers choose us for the quality of our products first and foremost but also for our ability to be flexible and helpful. Whether it is having your goods packed a certain way, identifying product with your part numbers, or rising to those moments where you need your supplier to react and make something happen, we pride ourselves on our ability to offer that personal attention.

Excellent stock availability.

We hold large amounts of quality products in stock at our West Midlands distribution centre meaning that you don't have to wait as long for that essential item.

Our prices are competitive.

Due to our size and focus on service we can afford to pass on savings to our customers.

We deliver daily.

We will endeavour to get your order to you, to the precise location, on the day required.

Our carriage paid value is £150 net, orders below this would incur a carriage cost of £9.95. We offer the following additional delivery options:

- next working day by 9am
- next working day by 10:30am
- AM next day delivery
- Saturday delivery

For these options please call our Customer Service Team who will be happy to provide you with prices.

Our invoicing is both prompt and accurate.

We're not a huge corporate organisation and because of this we can be flexible with our ordering and invoicing processes and adapt them to effectively match your requirements.

Errors & Omissions

Although care has been taken to ensure all information and images in this product guide are accurate, Tesla UK Ltd takes no responsibility for errors, omissions and product technical changes within this catalogue.

Our Brands

COOKERFLEX™

Cookerflex is a registered trademark of Tesla UK Ltd.

We manufacture cooker hoses at our factory in the West Midlands, UK.

Our cooker hoses are manufactured and approved to BS669 Pt. 1 or EN14800. They also incorporate a patented fire safety feature that will enable shut-off of the gas supply in the event of a fire.

TESLAFLEX™

Teslaflex is a lightweight semi-rigid corrugated stainless steel tube and fittings system (CSST) that is a time saving, cost effective alternative to rigid pipework for the supply of natural and liquefied gases (LPG) in domestic buildings.

TESLATUN

Teslatun is a dry trap tundish that includes a specially designed seal that prevents any smells or gases entering the building when the discharge is connected to a soil, vent or other waste pipe, but still permits any discharge to be safely conveyed to waste.

HOBFLEX

A gas hob connecting hose that saves time when installing hobs.

Accreditations

Kitemark

Products approved to these BS standards undergo the most stringent of testing to ensure compliance to the standards, required for 1st, 2nd and 3rd gas families.

With the Kitemark, Tesla UK manufacturing processes are regularly audited by BSI to ensure consistency of supply. As a worldwide recognized approval it allows products to be exported to foreign markets.

Intertek

BEAB / INTERTEK

Our complete range of immersion heaters are covered by the BEAB approved stamp. Formerly ASTA-BEAB and now Intertek, the world renowned group of laboratories and testing facilities. The rigorous standard makes for peace of mind when supplying your domestic hot water needs.

OFTEC

Supplying a comprehensive range along with many ancillary products into the oil distribution market, it is considered key that we are part of the oil industries best known association. Indeed we have gone a stage further in making sure our fire valves are BSRIA tested and OFTEC certified to the latest OFCERT licence scheme standards.

CE Marked

CE marking is a declaration that Tesla UK products are compliant with all EU Directives and is mandatory to guarantee they meet the minimum legal requirements. Every Tesla UK product that carries the CE marking has been independently tested for compliance to the required standards and regulations. This means our products can be supplied anywhere in the UK and European Union with confidence they will be compliant.

WRAS

Where beneficial to the market, Tesla UK Ltd fittings and valves come with full approval from WRAS for potable water solutions. With a comprehensive range of products covered by this approval, you can be assured that the products will exceed expectations.

THE PROFESSIONAL DOMESTIC GAS HOSE

DESIGN & QUALITY

Tesla UK Ltd is the UK leader in gas hose and gas fitting design and technology with over 100 years' experience in manufacture. We are always at the forefront of design and quality and as well as representation on UK Standards Committees have also worked on European Committees for gas hoses and gas fittings.

APPROVALS & TESTING

Cookerflex gas hoses and fittings by Tesla UK Ltd are tested and approved, to their respective standards, by BSI and are approved under the the BSI Kitemark ensuring quality is maintained through factory audit of our manufacturing process. We also have all our own in-house testing to ensure compliance with standards of safety and all gas hoses and fittings are 100% leak tested before despatch.

PATENTED FIRE SAFE TECHNOLOGY

All Tesla UK Ltd Cookerflex bayonet and micropoint hoses have a patented end fitting design that shuts off the gas supply in case of fire near the gas cooker. With gas cookers being a main cause of fires in kitchens we developed and introduced this technology to help save lives.

MADE IN BRITAIN

Tesla UK Ltd is the leading UK manufacture of gas hoses and fittings with over 100 years of experience in manufacture. All Tesla UK Ltd Cookerflex gas hoses are manufactured in our Minworth, UK factory and are regularly audited by BSI to ensure consistency of quality and design, previously we would have had similar operations and systems in place when being audited by British Gas.

Where you see the Cookerflex Brand you are sure to be using the safest of products manufactured in Britain.

TESLAFLEX - Corrugated Stainless Steel Tubing

A safe main line connection for all domestic gas appliances

Teslaflex is a lightweight semi-rigid corrugated stainless steel tube and fittings system (CSST) that is a time saving, cost effective alternative to rigid pipework for the supply of natural and liquefied gases (LPG) in domestic buildings.

Teslaflex is manufactured and approved to the European Standard EN15266:2007, referring to 'Stainless Steel pliable corrugated tubing kits in buildings for gas with an operating pressure up to 0.5bar'. The aim of the Standard (EN 15266) is to improve the safety level of domestic natural gas connections in the building and to provide countless benefits for both users and installers.

The Teslaflex system prevents heavy lifting, extensive measuring, cutting and threading with connections completed with simple hand tools safely and quickly.

Features & Benefits

- Typically requires fewer fittings per installation than conventional rigid pipework, saving time and money
- Flexible piping system
- Connections can be made with simple hand tools, safely and quickly
- Connects to existing gas lines
- Flame free installation. No torch, no gas, no flux, no system contaminants
- Competitive and stable price basis

Kitemark pending

2 YEAR WARRANTY

Looking for an industrial or bespoke immersion heater? See page 58

Towel Rail Heating

Towel Rail Elements

- Complete with 1/2" chrome tee & blanking plug

Code	Watt
TR11	150w
TR12	200w
TR13	250w
TR14	300w
TR15	400w
TR16	500w
TR27-6	600w
TR27-8	800w

Towel Rail Valves

Verona

- Positive shut-off
- Bi-directional valve
- Temperature range 0-85°C
- 2 pack

Code	Description	Finish
RVVERS	Straight	White
RVVERA	Angled	White
CPTRV15	Angled	Chrome
CPTRV15-S	Straight	Chrome

Dual Fuel Corner

This valve set allows pipework to remain hidden behind the towel rail, taking the pipework from the wall and going straight into the rail.

With a 1/2" female thread on the bottom of the valves, the towel rail element can go straight through the valve, rather than going through a tee piece and then into a valve. This is one of the neatest ways to do a dual fuel installation on a towel rail.

Code	Supplied as a pair
DFTRV	15mm

Corner Pattern

Corner pattern towel rail valve set, contemporary style with cylindrical handle. This valve set with lock-shield allows pipework to remain concealed behind the towel rail, by taking pipework from the wall that the rail is attached to, and going straight up into the towel rail.

Code	Supplied as a pair
RVCORNER	15mm

Thermal Controller

This towel rail control plate by Tesla UK is used to control the output of your towel rail element. The towel rail element can be wired directly into this control plate, in the bathroom (IPX5 rated).

Code	Description
TCP200	Thermal controller IPX5

Cover Plate

This optional chrome cover is the perfect finishing touch for your Tesla Towel Rail Control Plate (TCP200).

Code	Description
TCPCP	TCP200 chrome cover only

Square Corner

This valve set with lock-shield allows pipework to remain concealed behind the towel rail, by taking pipework from the wall that the rail is attached to, and going straight up into the towel rail.

Code	Supplied as a pair
RVSQ	15mm

Accessories

Dual Fuel

- For use with dual fuel systems
- Chrome plated

Code	Size	Description
DFELB	1/2"	Dual Fuel Elbow
8T15	1/2"	Dual Fuel Tee

Chrome Cap

Replaces the white cap on the Tesla towel rail elements.

Code	Finish
TRECC	Chrome

Blanking Plug

- Includes 'o' ring
- Chrome plated

Code	Size
RP12C	1/2"

Air Vents

Code	Size / Description
AVM12CP	1/2" manual chrome
AVDKIT	Directional air vent & plug kit
AV12DIR	1/2" Directional

ORDER TODAY:

Expansion Vessels & Accessories

Heating & Cooling Vessels

Reflex NG, diaphragm expansion vessels for sealed heating and cooling systems.

- Built in accordance to EN 13831.
- Approval to pressure equipment directive 2014/68/EU.
- Welded construction
- Durable external epoxy powder coated finish
- Fixed diaphragm

Code	Litre
8230100	8
8240100	12
8250100	18
8260100	25

* Other sizes available upon request

- Max. operating temperature: 70°C
- Max. working pressure: 6 bar
- Factory air pre-charge: 1.5 bar - nitrogen

Potable Vessels

WRAS approved bladder expansion vessel for mains drinking water supply systems.

- Bladder according to DIN EN 13831
- Durable external epoxy coated finish

Code	Litre
7200300	2
7301000	8
7302000	12
7303000	18
7304000	25

* Other sizes available upon request

- Max. operating temperature: 70°C
- Max. working pressure: 10 bar
- Factory air pre-charge: 4 bar - nitrogen

Shock Arrestor

Water shock arrestors are neither expansion vessels nor buffer vessels but are designed specifically to absorb water shocks in water pipes up to 1/2". They are ideal for fitting upstream of washing machines, dishwashers or combined heating appliances.

- Max operating temperature 70°C
- Outside coated with protective paint
- Approval to EU directive 2014/68/EU

Code	Description
7351000	Shock arrestor

Accessories

Expansion vessel mounting bracket kit

- Includes:
- Bracket (holds upto 25ltr vessels)
 - Jubilee clip
 - Rawl plugs
 - Screws

Code	Description
EVMBKIT	Vessel mounting bracket kit

Sealed system installation kit

- Includes:
- WRAS approved filling loop with caps
 - Valve
 - Nut, washer & olive
 - Gauge

Code	Description
EVCKIT	Sealed system intallation kit

Expansion Vessel Lockshield Valve

Lockshield valve, shut off/drain, for membrane expansion vessels in sealed heating and cooling systems. With a protected shut-open facility against inadvertent closing, also with drain outlet (draining vessel contents) according to EN 12828.

Code	Size
EVLS	3/4"

ORDER TODAY:

Radiator Valves & Accessories

Winchester

Heavy brass valves in Edwardian style. A perfect match for column radiators.

- Positive shut-off
- Bi-directional valve
- Lockshield included
- Removable inserts at the bottom allow the valves to take either 15mm pipe or 1/2" thread.

Code	Colour	Size
RVWINN	Nickel	15mm x 1/2"
RVWINB	Brass	15mm x 1/2"

Standard

- All compression ends are manufactured to BSEN1254-2
- Lockshield cap

ORDER TODAY:

The Teslatun eliminates the need to install both a tundish & trap providing you with the all-in-one solution, saving you time & money.

THE ALL IN ONE SOLUTION

- 1** 15mm inlet (nut & olive included)
- 2** Unique design to allow visual means of discharge, air break to drain & built-in cover to prevent splash back
- 3** Specially designed seal that prevents any smells or gases entering the building when the discharge is connected to a soil, vent or other waste pipe.
- 4** 22mm outlet (nut & olive included)

Code	Size	Colour
DTUN1522	15 x 22mm	Black

• up to 18 litres per minute

- Eliminates the need to install a tundish and a dry trap
- Time, cost & space saving
- Operates under full bore discharge or with only a few drips
- Prevents odours & gases from entering the building
- Safe and visible means of discharge

BS5410-1 & BS799-5 state that all oil supply lines should be protected by a fully re-settable, remote acting fire valve and is approved to OFSE101:2015 and compliant with the OFCERT scheme. Fire Valves by Tesla UK Ltd have been developed to do such a job. It safeguards the installation by shutting off the fuel from the oil line in the event of a fire.

Aladdin

Easyfit Isolator

Clamps to pipework and installs an isolation valve safely in 3-5 minutes with the use of a drill.

Provides a permanent, full-bore stop valve in the system. Installs into pressurised pipework, even with hot running water.

- Ideal when stop cocks are inaccessible
- Emergency shut-off for leaking pipes
- Avoids delays when draining heating systems
- Isolates feeds in multi-occupancy buildings
- 10 year manufacturer's operating guarantee

Code	Description
EZF03	Easy fit isolator starter pack (includes tools)
EZF01	Easy fit isolator refill pack (no tools)

Autovents

Self-bleeding radiator valves save energy, keep radiators hot-to-top, reduce corrosion and system noise and dispense with the use of radiator keys.

- Automatically bleeds towel rails & radiators
- Ideal for landlords & homeowners
- No manual purging

Code	Description
HV30C	1/2" autovent (2 pack)
HV30CBP	1/2" autovent & plug

The Immersion Heater Specialists

Thermco Electricals Ltd provides an extensive range of domestic, commercial and industrial immersion heaters to meet customer needs and specific requirements. Located in Norfolk, Thermco manufactures a vast range of high quality products.

LoWatt

Thermco Electricals produce a wide range of high quality low wattage immersion heaters for use with marine, solar, eco and wind energy systems.

Unvented

Thermco engineers have been involved in the design and manufacture of immersion heaters for unvented cylinders for nearly 20 years. Thread sizes from 1 1/4" BSP to 2 1/4" BSP, Incoloy and titanium materials and can offer the most suitable thermostat arrangement for your product.

Manufactured in the UK

With almost 100 years of knowledge and experience in the Immersion heater industry, Thermco Electricals Ltd can provide a comprehensive solution to domestic, commercial and bespoke applications. Thermco continue to develop high quality products in partnership with their customers in order to provide innovative and reliable products through continuous product development.

In-line

Based on the well-known Willis Heater, the Geeza is a heater with an integrally fitted immersion heater complete with a thermostat incorporating a safety cut-out and prewired with 1.3m of cable. The assembly is also fitted with an outer insulation sleeve.

Bespoke

Thermco Electricals Ltd supply a wide range of immersion heaters for special applications, such as thermal store heaters, agricultural use, abbatoirs, hairdressing units and replacement elements. With our vast experience, we can supply replacement immersion heaters for most types of water heaters, from one off upwards.
