

Working Temperatures & Pressures

When Correctly assembled with copper tubes manufactured to BS EN 1057 Compression fittings can operate at the temperatures and pressures below:

| Max Temps | Max pressures for nominal diameters from 6mm up to and including 54mm |
|-----------|---|
| °C | BAR |
| 30 | 16 |
| 65 | 10 |
| 110 | 6 |
| 120 | 5 |

Note 1: Intermediate pressure rating shall be determined by interpolation

Note 2: Certain designs of compression fittings are suitable for use at temperatures / pressure ratings outside those given in this table. For such application the advice of the manufacturer should be sought.
